Social-Communication
School Based Interventions for
Children with Autism Spectrum Disorders

Presented by Connie Kasari, Ph.D.
Professor, UCLA Center for Autism Research & Treatment

Wednesday, April 9, 2014 – 7:00 p.m. Lecture

The Arnold and Mabel Beckman Center of the National Academies of Sciences and Engineering
100 Academy Way, Irvine, CA 92617

Reception immediately following the lecture

Many interventions are considered efficacious for children with Autism Spectrum Disorders (ASD), but few have been translated from clinical settings to children’s everyday environment of school. Dr. Kasari’s talk will focus on intervention research tested in schools that focuses on the core deficits in social communication of children with ASD. Interventions delivered by therapists, teachers and paraprofessionals will be highlighted.
The Francisco J. Ayala School of Biological Sciences
In collaboration with the
Center for Autism Research and Translation
and the
Center for Autism & Neurodevelopmental Disorders
presents
The Allergan Lecture Series in Modern Biology
