

EXCELLENCE IN RESEARCH 2022-2023 - ELIGIBILITY

Undergraduate students must be enrolled in independent research in Biological Sciences (**MUST BE A BIO SCI 199 – other School's 199s are not accepted**). Students must have completed a minimum of four (4) quarters of research on the same project by the end of Spring Quarter, 2023. At least one quarter must be taken during the 2022-2023 academic year.

Students must also be enrolled at UCI through Spring quarter and graduate no earlier than Spring of the year they are participating.

Students must be in good academic standing with an official, cumulative **UCI GPA of 3.0** or better by Fall quarter 2022 end.

There can be NO record of Academic Dishonesty.

Those students who have earned Excellence in Research previously are eligible again, provided that all requirements are met and the research project is different.

If there is any question regarding your eligibility, you are urged to contact Susan Schafer or Christin Stephens in the Biological Sciences Student Affairs Office prior to attending a mandatory workshop. **Eligibility requirements are strictly adhered to. Exceptions are not permitted.**
