

 **UCI** School of Biological Sciences

BIO SCI

Graduation Celebration 2023

June 18, 2023 – 8:30 A.M.

CELEBRATION **SPEAKER**

Andrew Hwang

Dr. Andrew Hwang is a periodontist living in Irvine, California. He graduated from UC Irvine for his Bachelor of Science in Biology, went to UCLA for his Doctorate in Dental Surgery before completing his Masters in Periodontology at Columbia University. He comes from a family of dentists, as both his parents, sister and brother in law are also dentists. Dr. Hwang has always been interested in technology and after completing dental school, he founded a couple startup companies

that assist doctors with their patient reminders, online scheduling, and website creation. While on his journey of being an entrepreneur, he came across blockchain and immediately became fascinated with it. Dr. Hwang spends 5-6 hours everyday researching the topic and has retired from Periodontics to focus solely on the coming blockchain revolution. He has now joined Rosten Capital, a hedge fund based in Newport Beach, leading their Blockchain Infrastructure fund.

2023 Golden Apple winner

Andrea Nicholas, PhD **Neurobiology and Behavior**

Professor Andrea Nicholas first came to UCI in May, 2012. A year later, then Associate Dean of Undergraduate Education Michael Leon, PhD, asked Professor Nicholas to develop a specific pre-med major to cater to students pursuing careers as healthcare professionals. She conducted research to find out exactly what pre-med students were seeking from a dedicated pre-med program. The result of her work was the creation of the UCI BioSci Human Biology Major.

"When you look back at the moments that drove you, they probably didn't happen reading a textbook," Professor Nicholas said recently. "I put all my energy into creating snapshots where students are seen, heard, admired and rewarded for their scientific and medical passion by peers, experts and young people who emulate them. Human Bio majors graduate, move on and they come back to share their stories, advise and keep our train moving. Every train needs a conductor and I suppose that's been me." Her dedication to serving as faculty advisor to students in the major, and her commitment to pedagogical research are a testament to why she is our 2023 Golden Apple Award winner.

MESSAGE FROM DEAN LAFERLA

Dear Class of 2023,

I am honored to congratulate all of you on receiving your undergraduate or master's degree on this momentous day. Earning a degree in biology is challenging under the best of circumstances, but with the challenge of a global pandemic and remote learning, your achievement these past few years is even more special. On behalf of the faculty and staff of the UC Irvine School of Biological Sciences, I am very proud of you and your accomplishments.

As you know, our school's foundational theme is MIND|BODY|WORLD. The COVID-19 global pandemic and the foreboding impact of climate change have illustrated just how connected life is. The world depends on biologists like us to find solutions to coronaviruses and the climate crisis, as well as any future threats. Pursuing studies in the biological sciences is tough, but has never mattered more.

The late founder of Apple, Steve Jobs, said, "I think the biggest innovations of the 21st century will be at the intersection of biology and technology. A new era is beginning." Today, that "new era" is a reality. And you are now among the fortunate few who possess important comprehension of science and technology. I know you will use this knowledge to do good, rewarding work in your future profession. You are the game-changers for our planet.

I hope you will always remember your time at UCI with fondness and remain in close contact with the school.

Best wishes,

Frank LaFerla

Frank M. LaFerla, PhD
Dean and Distinguished Professor

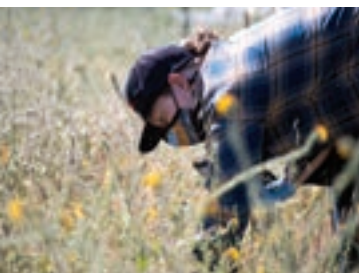

Past Golden Apple winners

Kim Green, PhD, '22	Georg F. Striedter, PhD, '17	Melissa B. Lodoen, PhD, '12
Matthew McHenry, PhD, '21	Justin F. Shaffer, PhD, '16	Susana Cohen-Cory, PhD, '11
Nancy Aguilar-Roca, PhD, '20	Kim Green, PhD, '15	Christine Suetterlin, PhD, '10
Michael Leon, PhD, '19	Aimee L. Edinger, VMD, PhD, '14	Steven D. Allison, PhD, '09
Julia Massimelli, PhD, '18	Kailen A. Mooney, PhD, '13	Marcelo A. Wood, PhD, '08
		Shiou-Chuan (Sheryl) Tsai, PhD, '07

We are proud of your many accomplishments during your time with us and we congratulate you on reaching today's milestone. The knowledge and skills you have gained at BioSci will serve you well as you go forward to make your mark in the world. We know that you will continue to make us proud!

– Raju Metharate, PhD,
Associate Dean of Undergraduate
Education, 2017-Present

YOU MAKE A DIFFERENCE TO BIOSCI

When graduating from UCI BioSci, you belong to a dynamic community of alumni who care about the health of our minds, our bodies and our world. With your undergraduate education or master's degree completed, your connection to the School remains invaluable. Here's how you can help advance our collective mission:

Attend: Join us at lectures, events and celebrations.

Mentor: Volunteer with our program to help guide tomorrow's biologists.

Stay connected: Find us on social media and provide us your updated contact info to receive special invites and news.

Give: Even a small financial gift has a big effect. Gaining donors helps our U.S. News ranking climb and broadens our impact on the world.

Any or all of these activities sustain your bond with BioSci and assist in creating a better planet for all who inhabit it. For further information, please visit bio.uci.edu/giving.

[Congratulations, Class of 2023!](#)

Join the BioSci Ambassadors Network!

The BioSci Ambassadors Program is a gateway to an extraordinary experience with one of the preeminent research and teaching institutions. It offers a unique setting to interact with and learn from renowned experts at the forefront of discovery as well as others in the community with a passion for making the world a better place for everyone. To learn more, visit bsa.bio.uci.edu.
