2. Nursing Science 92: "Compassion in Healthcare" - 1 Unit
Hey everyone! If you are someone who is interested in pursuing a career in health care or are interested in finding out if this is the field for you, I would like to invite you to take this one unit course next quarter in which you will have the opportunity to hear first-hand from the experiences of various health care professionals including MDs, DOs, NPs, etc. and learning about how they work to remain compassionate when in their careers. No midterms, no finals, just graded based on participation one session a week and it is pass/no pass. Because it is seminar based, it is an excellent opportunity to network with other students and with these professionals as you will be able to them questions about their healthcare journeys or about other topics so I highly recommend for all you pre-health/pre-med or related majors.

3. Latino Medical Student Association Presents: Medical School Application Series - Apply by March 30

Applications due March 30, 2024

5. Medical Assistant Job Opportunity - Starting April

Irvine Orthopedics is a private clinic specializing in sports medicine and general orthopedics. We are seeking a Medical Assistant to work for Dr. Darius Lin, a board certified and fellowship trained orthopedic surgeon.

This is a paid position ($17.00 per hour) and the start date is flexible.

This position will require the ability to speak both English and Mandarin. The successful applicant will be eager to learn about this specialty and the medical field, will be enthusiastic to assist Dr. Lin in both administrative and clinical duties, and will have strong organizational skills. No experience is necessary for this position.

This is a part-time position Tuesdays - Fridays 8:30am to 5:00pm.

You can find out more information about our clinic and Dr. Lin at the link below: https://www.irvineorthopedics.com/about-us/

If you are interested in applying for this position, please send your resume and contact information to:
Igonzalez@irvineorthopedics.com

Thank you and we look forward to hearing from you!
6. UCI Center for Neuropolitics - "Presidential Leadership and Disability" - March 15

The age of presidential candidates has become a salient concern, but age is not the only physical factor that should concern citizens. Presidents can also suffer various forms of illness, both physical and psychological. This talk highlights the nature of these concerns and how we might work to mitigate their impact on political outcomes.
